### **Federal Hill Smiles to Host a Free Day of Dentistry**

**Baltimore, Md.**—Dr. Denise Markoff and the Federal Hill Smiles team are out to change lives by offering free smiles to those in need. Starting at 8:00 a.m. on February 20, the team, along with Linthicum-based Dr. Jason Elliott, will offer free services to the men of The Baltimore Station, acting as the hosts of the latest event for Dentistry From The Heart.

“Now more than ever, I know there are people out there who need my services, but have no means to afford them—whether they’re out of a job, or just don’t have dental insurance,” explains Dr. Markoff. “This event is my way of giving back to my South Baltimore Community, and being there for the people in need of dental work.”

For the past 10 years, Dr. Markoff has been involved with charitable and humanitarian efforts both at home and abroad. Along with the Federal Hill Smiles team, she has helped hundreds of people by treating patients in need of fillings, extractions and cleanings.

Dentistry From The Heart (DFTH) is a national nonprofit organization with a simple mission—making people smile. Founded in 2001 by Dr. Vincent Monticciolo in New Port Richey, Fla., DFTH was created to aid those in need, including the growing population of under-insured Americans. More than 100 million Americans lack dental insurance, and more than 29 percent of adults have untreated cavities. To date, DFTH has helped more than 10,500 patients and provided more than \$2.5 million in dental care services.

The Baltimore Station is a long-term recovery program with a proven track record for rehabilitating men who have served our country in the armed forces. For the past 20 years, thousands of men served by The Baltimore Station (TBS) have transitioned from homelessness and addiction to productive citizens of the Baltimore community.

Patients are at the core of Dr. Markoff’s practice philosophy. She combines state-of-the-art techniques with personalized care to provide excellent service in a comfortable environment.
